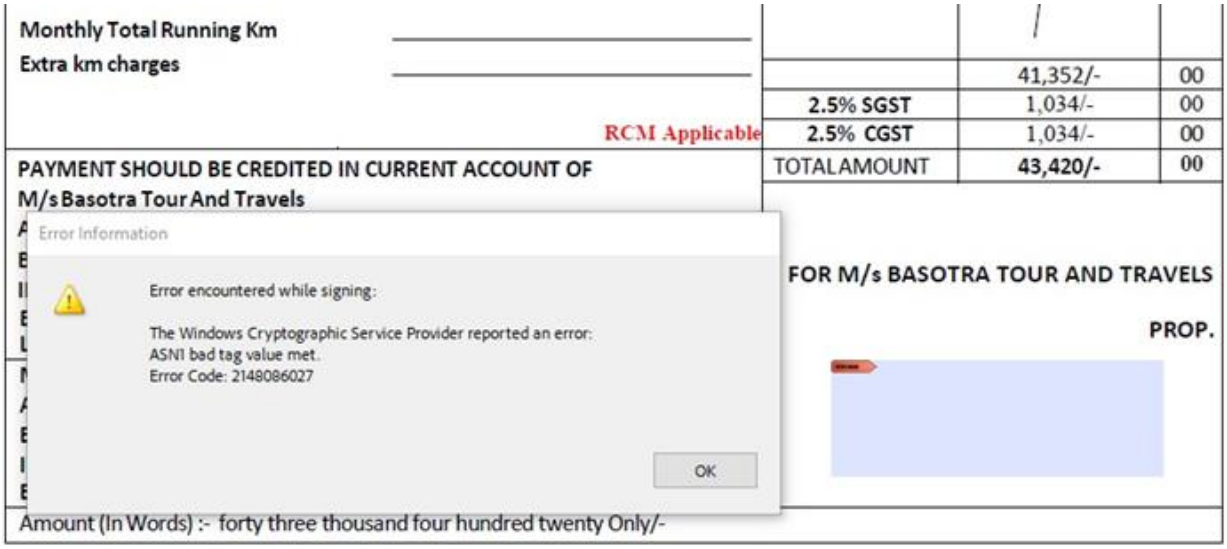
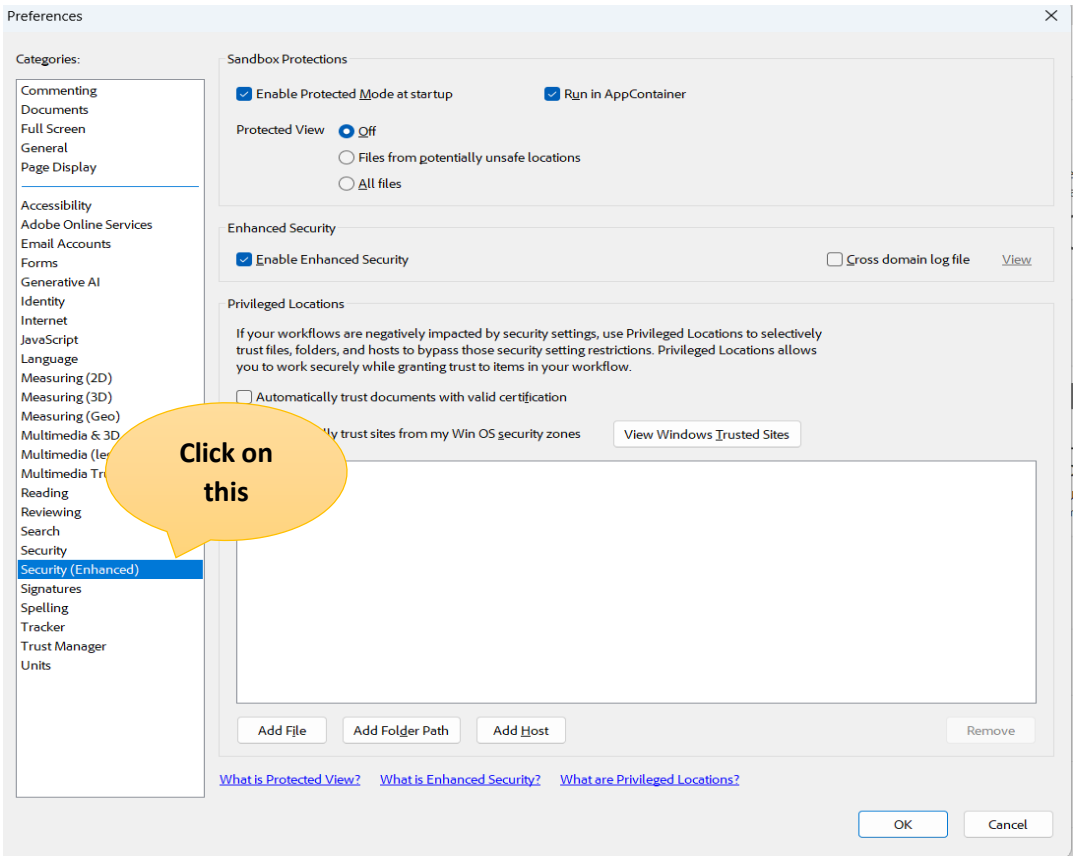
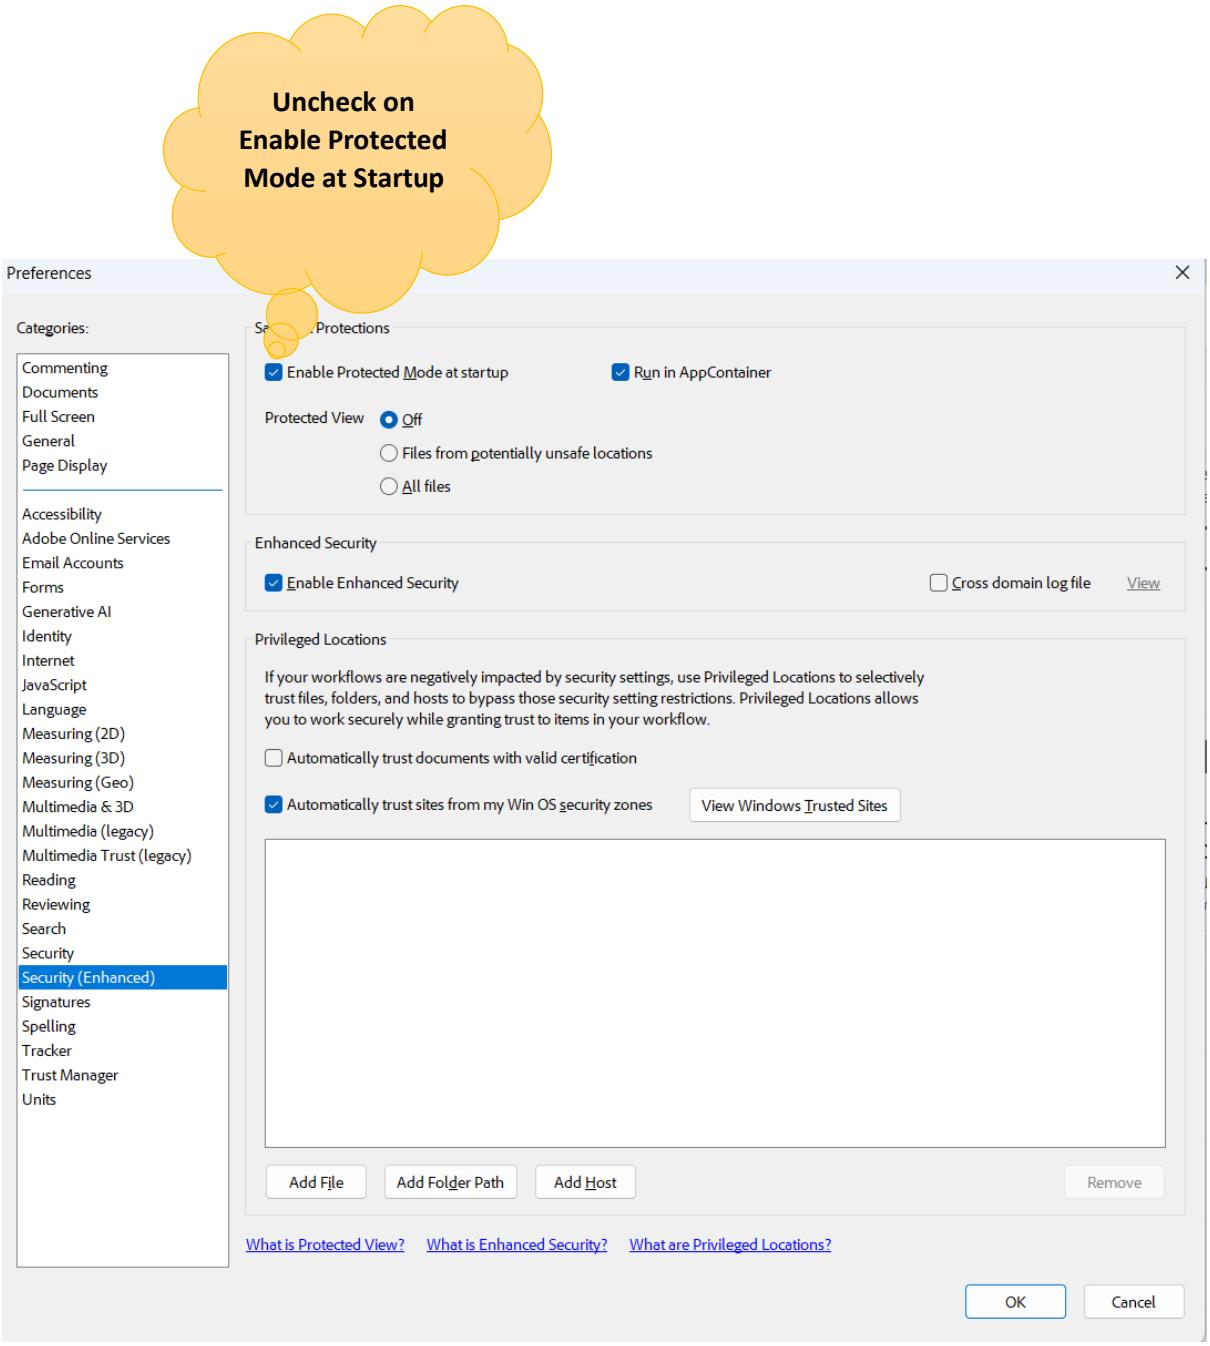
Error encountered while signing
The Window cryptographic error in PDF signing



Step 1 – Go to Adobe Reader and press **"CTRL + K"** or go to Preferences from Adobe Reader Menu for example



Now click on **"Security (Enhanced)"**



Now un-tick on **"Enable Protected Mode at startup"** and click yes on next popup and click on okay button.

Note- close all pdf and re-open pdf and sign again issue will be resolved

Thanks
Team ProdigiSign CA
