How to Download DSC in mToken with ProDigiStore Utility

FIPS 140-3 CERTIFIED

1 Step 1: Install mToken Driver (Choose either Auto Run)

1. **Plug in Blue mToken** into your USB port.

2. Open This PC and under Devices and drives, double click on **CD Drive mToken CryptoID5.**

3. Click on **Start.**

2 Step 2: Install ProDigiStore Utility

1. Go to **prodigisign.com** in your browser and click on **ProDigi Store V1.7 (Java).**

2. This will download **New_1.7_Version_ProDigiStore.zip** to your PC.

3. Extract the zip and install on your PC.
